DEBONADEMEO DESIGN

## AYTON

Passato e presente, tradizione e innovazione si incontrano in Ayton, un sistema di divani che genera sensazioni contrastanti: le linee rigorose del supporto si contrappongono alle morbide curve degli imbottiti, le superfici lisce si abbinano a morbidi tessuti, la pelle più pregiata a ricercati filati. La severità del telaio ispirato alle geometrie nordiche degli anni 50, si attenua nella comodità informale della seduta di gusto contemporaneo.

Come un tappeto volante, la struttura si solleva da terra in un piano orizzontale a conchiglia che racchiude un cuore soffice e accogliente. Ayton si compone di varie tipologie di sedute e ripiani combinabili all'infinito per adattarsi con naturalezza agli ambienti domestici e pubblici.

Past and present, tradition and innovation combine in Ayton, as the strict lines of the support contrast with the soft curves of the upholstery, the smooth surfaces combine with soft fabrics, and the finest leathers with refined yarns. The austerity of the frame, inspired by Nordic geometries of the '50s, fades into the informal comfort of the contemporary seat and backrest.

Like a flying carpet, the structure rises from the ground in a horizontal plane as if in a shell that encloses a soft and welcoming heart. Ayton is a fully modular composition of seats and shelves that naturally adapts to every space, from domestic to public.

Passé et présent, tradition et innovation se rencontrent dans Ayton, un concept des canapés qui suscite des sensations contrastées : les lignes rigoureuses du support contrastent avec les formes souples du coussinage, les surfaces lisses sont assorties à des tissus doux, le cuir le plus raffiné à des fils recherchés. La rigueur du châssis inspiré par les géométries nordiques des années 50, est adoucie par le confort informel d'assise et de dossier dans un style contemporain.

Comme un tapis volant, la structure se détache du sol dans un plan horizontal en forme de coquille qui encadre un cœur doux et accueillant. Ayton est composé de différents types de sièges qui peuvent être combinés à l'infini pour s'adapter naturellement aux environnements domestiques et publics.

## TECHNICAL

**Struttura:** in tubolare metallico curvato.  
**Sospensione seduta:** telaio in multistrato di pioppo sagomato e forato per permettere la fuori uscita dell'aria dal cuscino in piuma.  
**Supporto schienale:** in tubolare metallico con cinghie elastiche ammortizzanti.  
**Imbottiture:** Schienale fisso in poliuretano espanso di densità 25Kg/m<sup>3</sup> e rivestito con trapuntino in piuma canalizzata per garantire una localizzazione della piuma netta e costante nel tempo. Il trapuntino in piuma conferisce morbidezza e sofficità. Sedute fisse in poliuretano espanso a quote differenziate di densità 35/30/25Kg/m<sup>3</sup> rivestito con trapuntino in piuma canalizzata che conferisce sofficità al cuscino. **Dettaglio:** doppia tiratura enfatizzata da ricamo compatto a zig-zag. **Piedini:** in metallo laccato o trattato galvanicamente con appropriati sottopiedi in plastica.

**Structure:** in curved metal tube. **Seat springing:** frame in poplar plywood shaped and perforated to allow the exit of air from the feather pillow. **Backrest support:** in metal tube with elastic straps. **Fillings:** fixed backrest in density 25 Kg/m<sup>3</sup> polyurethane foam and covered with feather quilt channelled in order to guarantee that the feathers remain neatly and constantly in place over time. The feather quilt gives roundness and softness. Fixed seat cushions in polyurethane foam density 35/30/25Kg/m<sup>3</sup> covered with feather quilt channelled that gives softness to the cushion. **Detail:** double stitching emphasized by compact zig zag embroidery. **Feet:** in lacquered metal or galvanized with appropriate plastic glides.

**Structure :** en tube métallique incurvé.  
**Suspension d'assise :** châssis en multiplis de peuplier profilé et perforé pour permettre la sortie de l'air du coussin en plumes. **Support de dossier :** en tube métallique avec sangles élastiques. **Rembourrage :** dossier fixe en mousse polyuréthane densité 25 Kg/m<sup>3</sup> couverts par un couette en duvet à secteurs pour garantir au duvet une localisation nette et constante dans le temps. La couette en duvet donne douceur et souplesse. Coussins d'assise fixes en mousse polyuréthane densité 35/30/25 Kg/m<sup>3</sup> couvert par un couette en duvet à secteurs qu'il confère souplesse au coussin. **Détail :** Double étirage soulignée par une broderie zigzag compacte. **Pieds :** en métal laqué ou galvanisé avec des patins en plastique appropriés.

La collezione Ben presenta un sistema di divani fissi e componibili in linea e ad angolo. Le linee ben definite e disegnate e l'ampia componibilità costituiscono la caratteristica principale della collezione, che si adatta ad un arredamento dal gusto internazionale e contemporaneamente orientato ad apprezzare le caratteristiche del moderno design italiano.

La preziosità della pelle al vegetale, gli incontri speciali di materiali e colori. La grande flessibilità di un divano dalla linea pulita pensato anche per grandi spazi hospitality e commerciali.

The Ben collection presents a system of fixed and modular sofas, that can create an extended range of solutions, both linear and angled. The well-defined and designed lines and the wide modularity constitute the main features of the collection, which adapts to interiors with international taste and simultaneously oriented to appreciate the characteristics of modern Italian design.

The preciousness of vegetable skin, the special meetings of materials and colors, the great flexibility and its clean lines make this sofa the right piece also for large hospitality and commercial spaces.

La collection Ben présente un concept de canapés et canapé d'angle. Les formes bien définies et dessinées et la grande modularité constituent la principale caractéristique de la collection, qui s'adapte à un ameublement au goût international et en même temps orienté vers les caractéristiques du design italien moderne.

La préciosité du cuir végétal, des combinaisons originales de matériaux et de couleurs. La grande polyvalence d'un canapé à la ligne épurée conçu également pour les grands espaces d'accueil et commerciaux.

TAYLOR  
CARLO BIMBI DESIGN

## TAYLOR

La poltrona Taylor si caratterizza dalle forme sinuose e sensuali della struttura in legno massello scolpita a mano e dai morbidi cuscini in essa contenuti. Questo connubio di forme e materiali si può declinare in molteplici finiture e combinazioni: noce Canaletto o frassino (laccato o naturale) per la struttura lignea, tessuti o pelli per il rivestimento dei cuscini. Ne risulta una poltrona dalla forte connotazione scultorea e artigianale, che esprime a pieno i valori di Borzalino come l'eleganza, la ricercatezza del design, ed il comfort.

The Taylor armchair is characterized by the sinuous and elegant shapes of its hand-carved solid wood frame and its soft cushions. This combination of shapes and materials is available in a variety of finishes and blends: Canaletto walnut or ash (lacquered or natural) for the wooden frame, fabrics or leather for the cushions' cover. The result is an armchair with a solidly sculpted structure and nice craftsmanship that fully express Borzalino's values, such as elegance, refined design, and comfort.

Le fauteuil Taylor se caractérise par les formes sinueuses et sensuelles de la structure en bois massif sculpté à la main et par les coussins souples qu'il contient. cette combinaison de formes et de matériaux peut être déclinée en de nombreuses finitions et combinaisons : noyer canaletto ou chêne (laqué ou naturel) pour la structure en bois, tissus ou cuir pour les coussins. Il en résulte un fauteuil à forte connotation sculpturale et artisanale, qui exprime pleinement les valeurs de Borzalino telles que l'élegance, le raffinement du design et le confort.

## DORIAN

Il tavolo Dorian si inserisce nella zona living della casa connotandola grazie al suo design moderno e astratto. È composto da una serie di cornici metalliche di varie dimensioni, sfalsate tra loro e tenute insieme, quasi per assurdo, da dei frammenti di marmo, andando a costituire un basamento per un piano in cristallo molato. Come per tutti i prodotti Borzalino, esso può essere declinato in diverse dimensioni e materiali, offrendo grazie alle finiture del metallo e degli inserti marmorei infinite possibilità di composizione e personalizzazione.

The Dorian table is perfect for the living area of the house, characterizing it thanks to its modern and abstract design. It is constituted by a series of metal frames of various sizes, staggered and held together, almost by chance, by fragments of marble, forming a base for a ground crystal top. As for all Borzalino products, it can be available in different sizes and materials, offering endless possibilities of composition and personalization thanks to the metal finishes and the marble inserts.

La table Dorian est intégrée dans le salon de la maison, connotée par son design moderne et abstrait. Elle est composée d'une série de cadres métalliques de différentes dimensions, décalés entre eux et maintenus ensemble, de façon presque absurde, par des fragments de marbre, allant constituer une base pour un plateau en verre meulé. Comme pour tous les produits Borzalino, il peut également être décliné en différentes dimensions et matériaux, offrant, grâce aux finitions métalliques et aux inserts en marbre, des possibilités infinies de composition et de personnalisation.

LIRA

LUCA ROCCADADRIA DESIGN

## LIRA

Studiata per colmare ogni spazio della casa, la collezione di lampade Lira è composta da due diverse dimensioni di cesto, declinabili nella soluzione a sospensione, piantana, parete e da tavolo. La serie è caratterizzata da linee morbide, ma decise, enfatizzate dal tubino di metallo che ne delinea le forme lasciando trasparire, arricchendola, la luce emessa dalla sfera di alabastro o a scelta in cristallo. La minuziosa ed elaborata ricerca del materiale definisce ed esalta la collezione conferendole valore e unicità.

Designed to fit every room in the house, the Lira lighting collection offers two different lamp fixture “cap” sizes that can be made available in ceiling, floor, wall or table mounted versions. The series features soft, yet well-defined lines highlighted by the small metal edge that marks the lamp's contours, letting light pass through while enriching the luminous effect of the alabaster sphere. A detailed care and sophisticated search for the material define and exalt the collection, bestowing value and uniqueness.

Conçue pour remplir tous les espaces de la maison, la collection de luminaires Lira est composée de deux tailles de abat-jour différentes, déclinables dans la solution lampe à suspension, lampe de table, applique ou lampadaire. La série se caractérise par des lignes douces mais fortes, soulignées par ronds métalliques qui en dessine les formes en laissant transparaître, en l'enrichissant, la lumière émise par la sphère d'albâtre ou au choix en cristal. La recherche minutieuse et élaborée du matériau définit et enrichit la collection, lui donnant valeur et unicité.

## PAUL 1 / 2 / 2F / 3

La serie di tavolini Paul fanno della leggerezza estetica il loro punto di forza. Un insieme armonicamente perfetto di forme geometriche essenziali sapientemente congiunte a formare degli oggetti senza tempo. Il tutto è arricchito da materiali eccellenti quali l'ottone per la struttura, la pietra per i piani inferiori ed il vetro per il piano d'appoggio superiore.

The Paul series of small tables make aesthetic lightness their strong point. A harmonically perfect set of essential geometric forms, wisely combined to create timeless objects. Everything is enriched with excellent materials such as brass for the structure, stone for the lower shelves, and glass for the upper surfaces.

Les tables basses de la série Paul font de la légèreté esthétique leur point fort. Un ensemble harmonieusement parfait de formes géométriques essentielles habilement combinées pour former des objets intemporels. Tout est enrichi par d'excellents matériaux tels que le laiton pour la structure, la pierre pour les plateaux inférieurs et le verre pour le plateau supérieur.

Un elemento di arredo che va oltre la sua funzione intrinseca; principalmente appendiabiti, ma all'occorrenza anche porta scarpe o accessori. La struttura rigorosa, ma leggera, dona a questo prodotto una vera e propria trasversalità ambientale e stilistica. Perfetto per l'entrata o la camera da letto di una casa oppure di un hotel. Il legno in diverse finiture della base e del piano superiore si interseca con il metallo laccato a polvere creando un mix bilanciato ed elegante.

A piece of furniture that goes beyond its intrinsic function; mainly coat hanger, but also useful for storing shoes or accessories. The rigorous but light structure gives this product a real environmental and stylistic transversality. Perfect for the entrance or bedroom of a house or hotel. The base and top wood, in different finishes, intersects with the powder-coated metal of the frame creating a balanced and elegant mix.

Un produit d'ameublement qui va au-delà de sa fonction intrinsèque; cintres principalement, mais aussi, le cas échéant, des chaussures ou des accessoires. La structure rigoureuse mais légère donne à ce produit une véritable transversalité environnementale et stylistique. Parfait pour l'entrée principales ou la chambre d'une maison ou d'un hôtel. Le bois en différentes finitions de la base et de l'étage supérieur se rencontre avec le métal laqué en poudre créant un mélange équilibré et élégant.

## MARQUISE

Come un diamante. La serie di specchi Marquise prendono il loro nome dall'omonimo taglio eseguito su quanto di più prezioso è presente in natura, il diamante. Questa particolare forma ovale con gli estremi a punta crea una composizione visiva che va oltre la funzione intrinseca del singolo specchio, il dettaglio della bisellatura e la possibile differenza cromatica completano la composizione donandogli eleganza.

One would say "It's a Diamond". This series of Marquise mirrors takes its name from the cut performed on the most precious mineral found in nature: the diamond. This particular oval shape with pointed ends creates a visual composition that goes beyond the intrinsic function of the traditional mirror: the beveling details and the possible colour difference complete the composition, granting it elegance.

On dirait un diamant. La série de miroirs Marquise prennent leur nom de la coupe homonyme exécutée sur ce qui est le plus précieux dans la nature, le diamant. Cette forme ovale particulière aux extrémités pointues crée une composition visuelle qui va au-delà de la fonction intrinsèque du miroir, le détail du biseautage et la différence de couleur possible complètent la composition en lui donnant élégance.
