ARTISAN tradition  
*is* VITAL *for* our  
*interior* CONCEPTS.

# B HISTORY AND IDENTITY

*Our* story begins in **1976**, in the footsteps of the great artisan tradition that for centuries has made Tuscany great in the production of furniture. The immense knowledge and experience of founder **Galeazzo Fedi** are now in the hands of his heirs, **Cristiana Fedi** and **Matteo Pieri**, respectively daughter and grandson of Galeazzo.

Together with knowledge and know-how, we have kept alive through generations a very strong motivation to quality.

Artisan tradition is vital for our interior concepts and lives through every aspect of our work: care for construction details, very high production standards, passion for a job well done and respect towards those who work with us, be they customers, suppliers or our local community.

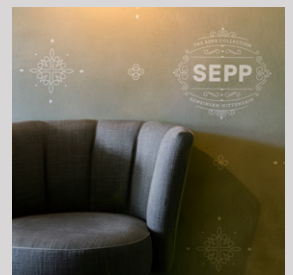

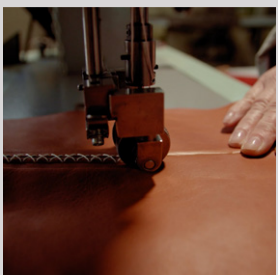

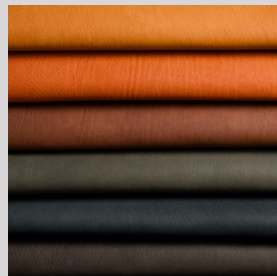

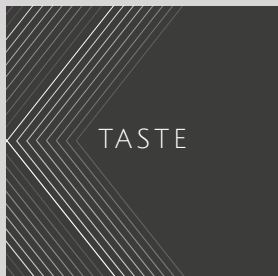

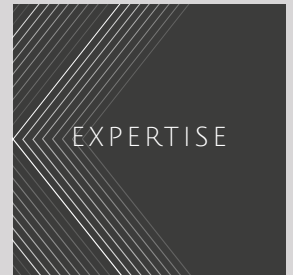

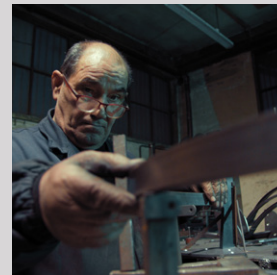

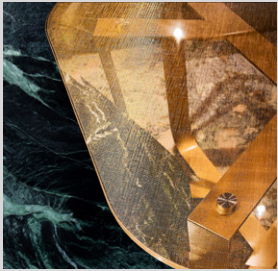

Solid in our guiding principles, we tell a story of continuous innovation in every field: technology, design, materials research and communication.

Cristiana Fedi  
Managing Director

Matteo Pieri

# B MORE THAN A PRODUCT

WARRANTY&QUALITY

*Our* identity is strongly linked to the territory where we were born and raised, to its geography of knowledge and its history.

**Tuscany** is a **unique region**, thanks to the coexistence of many artisan excellences ranging from furniture to fashion, from food and wine to new technologies, and linked by an entrepreneurial philosophy where aesthetics and ethics go hand in hand.

We choose to pursue a coherent policy with respect to supplies: we continue to produce all of our furnishings and accessories in Tuscany, inside our own laboratories.

**Natural materials and a short supply chain are keys to uncompromising quality.**

Tuscan vegetable dyed leathers, wood, metal and stone handcrafted by local artisans underline a connection with the Environment that is all-encompassing and transversal to our concept of interior design.

LEATHER *is*  
TRADITION, *emotion,*  
*manual* DEXTERITY.

# B MASTERS OF LEATHER

*Leather* is a strong point for BORZALINO. First of all, thanks to the expertise of our artisans: we build and upholster in-house our seats, sofas and armchairs since 1976.

Secondly, but not least for importance, since the Tuscan leather district has excelled in the processing of hides for centuries and this allows us to buy the best raw materials locally.

In our vast catalogue, we highlight in particular **vegetable tanned leathers**: a special technique that uses only dyes obtained from plant tannins, which leave the **leather natural, hypoallergenic and completely biodegradable**.

Skin mature and transforms over time without compromising its qualities, on the contrary: it improves with use.

**Leather is tradition, emotion, manual dexterity.** The most truthful and personal expression of individuality.

# B WE STAND BESIDE YOU

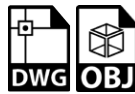

*From* single, made-to-measure sofa to the furnishing of a full interior, we provide the same commitment and attention to results. **We support individuals, architects, interior designers and contractors** to make their creative idea real, be it custom or bespoke.

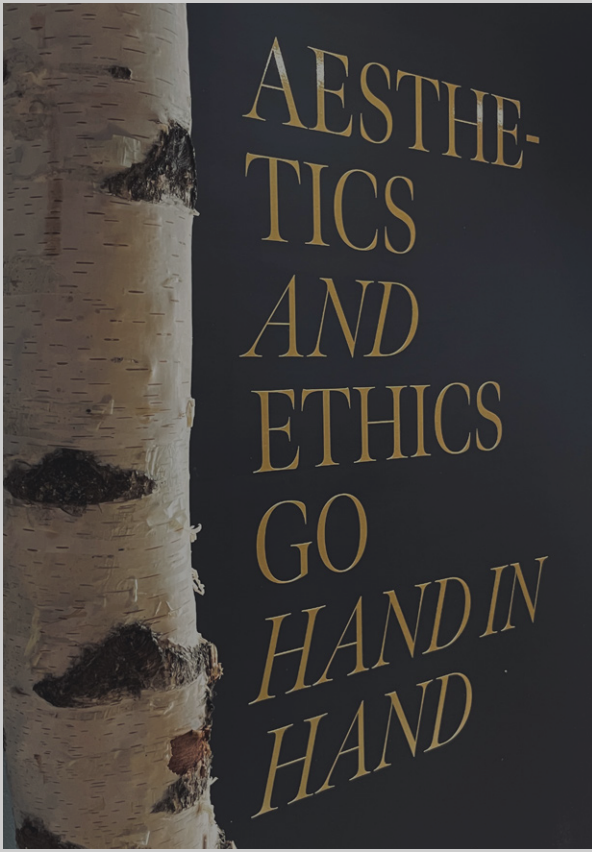

We share **2D and 3D files of all our products** and realize customized furniture and complements, going from editing the existent product design, through prototyping, and up to the final realization.

All our furniture is customizable with a **wide range of upholsteries, natural stones, precious woods and metal finishes, which we research continuously.**

In bespoke products and interiors, we can design anew and produce in-house what is needed to fulfil your vision.

BESPOKE

*taste*

*When* we think about a piece of furniture, we are actually visualizing who is behind each piece that composes it, those who contribute to its completeness: **the ones that worked that bronze or that walnut, tanned that leather, sewed that detail.**

They are not blurred faces to us, but **excellent people with whom we have had human relationships for years, even before professional ones**, and whom we would not exchange with anything in the world.

We approach our audience the same way: we think that getting in touch and conversing with creative individuals, visionaries from all over the world is a privilege. To best cultivate this type of partnership, we have always preferred quality over quantity and we want to continue to do so.

**Our mission is to create true relationships, because relationships are the best part of our job.**

# B COLLECTION

*Sofas* and **armchairs**, central elements of BORZALINO Living and **flagships of the brand's historic laboratory**, are flanked by a series of equally iconic accessories.

The collection has been expanding over the years: starting with all types of accent and functional seatings - such as chairs, benches, stools, poufs - up to both dining and coffee tables, desks, consoles and buffets, mirrors, planters and trays, but also beds and **other elements, initially designed bespoke, then integrated into an organic proposal.**

BORZALINO furnishings are designed both by our internal studio and by **designers and architects with whom we work continuously**, in order to enhance the mutual exchange and express a clear and precise concept, enriched by the ingenuity and art of high-level professionals.
